The Cigna 90 NowSM Program Retail Pharmacy Directory

There are thousands of retail pharmacies in your plan's network. They include local pharmacies, grocery stores, retail chains and wholesale warehouse stores – all places where you may already shop. Every pharmacy in your plan's network can fill 30-day prescriptions, and a select number of pharmacies can fill 90-day prescriptions. **This is a list of the largest retail pharmacy chains in the United States that participate in the Cigna 90 Now network.**¹ It's not a complete list of in-network pharmacies. You can go to [Cigna.com/Rx90network](https://www.cigna.com/Rx90network) to find more pharmacies in your plan's network.

Remember that with the Cigna 90 Now program, **all 90-day prescriptions² must be filled at a retail pharmacy approved to fill 90-day supplies, or through home delivery** (if your plan allows).³ In this list, pharmacies that are approved to fill 90-day supplies have this symbol  next to them.

Use home delivery and get your medication delivered to your door, and more.³

Home delivery may be a convenient option when you're taking a medication every day to treat an ongoing health condition. Our home delivery pharmacy will ship your medication to you at no extra cost. And they'll send you reminders so you don't miss a dose. To get started using home delivery, call **800.835.3784**.

Frequently asked questions

What's the Cigna 90 Now program?

It's a program that helps make it easier for you to fill your maintenance medications. These are the medications you take every day to treat an ongoing health condition like diabetes, high blood pressure, cholesterol or asthma.

- › Provides coverage for 90-day supplies at select retail pharmacies in your plan's network. You can also use home delivery (if your plan allows).³
- › Provides coverage for 30-day supplies at all pharmacies in your plan's network.
- › If you fill a prescription in a 90-day supply,² you must use a retail pharmacy approved to fill 90-day supplies, or home delivery,³ to receive coverage.
- › Does not include narcotics or specialty medications.

Do I need my doctor's approval to switch to a 90-day prescription?

Yes, you'll need a new prescription for a 90-day supply.

Are 90-day prescription fills available through home delivery?

Yes. Call our home delivery pharmacy at **800.835.3784** for help with moving your prescription. They'll take care of everything for you.

Are there any benefits to filling a 90-day supply?

Yes. You'll make fewer trips to the pharmacy for refills. And you're more likely to stay healthy because with a 90-day supply on-hand, you're less likely to miss a dose.⁴

Will I save money by filling a 90-day supply?

It depends on your plan. Log in to the myCigna app or website, or check your plan materials, to learn more about how your plan covers 90-day fills.

My pharmacy isn't approved to fill 90-day supplies. How do I switch pharmacies?

Here are three ways you can move your prescription.

- › Call your doctor's office. Ask them to send your prescription electronically to your new pharmacy.
- › If your prescription still has a refill available, ask the pharmacist at your current pharmacy to transfer your prescription to your new pharmacy for you.
- › If you'd like to use home delivery to fill your medication, call **800.835.3784**. A representative will contact your doctor's office to help transfer your prescription.

1. Participating Cigna 90 Now pharmacies as of July 2019. Subject to change. 2. Some medications aren't available in a 90-day supply and may only be packaged in lesser amounts. For example, three packages of oral contraceptives equal an 84-day supply. Even though it's not a "90-day supply," it's still considered a 90-day prescription. 3. Not all plans offer home delivery as a covered pharmacy option. Please log in to the myCigna app or website, or check your plan materials, to learn more about the pharmacies in your plan's network. 4. Internal Cigna analysis performed Jan 2019, utilizing 2018 Cigna national book of business average medication adherence (customer adherent > 80% PDC), 90-day supply vs. those who received a 30-day supply taking antidiabetics, RAS antagonist and statins.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.
